

# June 28, 2018 - Workgroup Call 1

## Agenda

1. Roll call
  2. Overview of charged tasks for Subcommittee (from WRAP workplan)
    1. Process and evaluate 2014 NEI and refinements (see wiki and evaluation memo suggesting criteria at: Initial review step for EPA's 2014v2 NEI is described in this May 22, 2018 memo.)
    2. Evaluate use of 2016 EPA modeling platform
    3. Develop and refine 2028 emission inventories
    4. Prepare modeling plan
    5. Prepare and evaluate meteorological data
    6. Perform dynamic model evaluations
    7. Conduct sensitivity testing
    8. Conduct/Evaluate AQ Modeling for BY and 2028 inventories
  3. Which states have reviewed the NEI summary and provided comment?
  4. Processing these revisions into a model-ready inventory
    1. Who, what when ?
    2. Example - do states have interest in updating construction dust to use county-specific PE-Index values (instead of single state value)
  5. Can someone describe how Oil & Gas was estimated for states that didn't submit their own data for 2014 NEI? For intermountain states:<http://views.cira.colostate.edu/wiki/wiki/9170/2014-oil-and-gas-emissions-inventories>
  6. What is the status of the modeling contractor? See attached [file](#).
