Air Quality Application Development Framework

FED

The screenshot shows the homepage of the Regional Haze Technical Support System. At the top, there is a green header bar with the system's name and a search bar. Below the header is a navigation bar with links for MONITORING, EMISSIONS, MODELING, RESOURCES, and HELP. The main content area features a large, colorful map of the Yellowstone National Park region, showing various data layers in green, blue, and orange. Below the map, the text "Yellowstone National Park" is displayed. A navigation bar at the bottom of the map includes buttons for All, Monitoring, Emissions, Modeling, and Documentation. The "Monitoring" button is currently selected. On the left, there is a section titled "Haze Summaries" with a sub-section for "Haze Trends" and a "Tools for analyzing visibility trends and species composition from the IMPROVE network". On the right, there is a "NOTICE" section with a message about the preliminary launch of the TSS v3 and a "UPDATES" section with a list of recent data imports. At the bottom, there are two more sections: "Air Quality Analysis" and "Haze Trends" (repeated), each with its own set of tools and data visualizations.
